X-LINE  
DESIGNED BY NIELS JØRGEN HAUGESEN

## X-LINE

DESIGNED BY NIELS JØRGEN HAUGESEN

X-Line er en ikonisk stol designet af den danske arkitekt, Niels Jørgen Haugesen, i 1977. Konstruktionen er baseret på en simpel og logisk formgivning – heraf opstod det ikoniske X, som er en vigtig del af stolens funktion, styrke og stabilitet. Den tynde tråd i stål giver stolen et smukt industriel udtryk, og gør den anvendelig til mange forskellige rum. Siden stolen første gang blev præsenteret i slut 70erne, er den blevet beundret af arkitekter og kreative mennesker verden over. Stolen stabler papirstyndt 9,5 mm med 12 stk på gulv og 40 stk på vogn.

// X-Line is an iconic chair designed by the Danish architect, Niels Jørgen Haugesen, in 1977. The construction is based on a simple and logic design – where the iconic X, plays the central part of the chair's function, strength and stability. The thin steel wire gives the chair a beautiful industrial look, and makes it usable for many different spaces. Since the chair was first presented in the late 70s, it has been admired by architects and creative people worldwide. The chair stacks paper-thin 9.5 mm with 12 pieces on the floor and 40 pieces on trolley.
